

Merlyn Origin
MERLYN MIND

Meet Merlyn

the AI assistant
for teachers

AI is here and teaching will never be the same.
But AI isn't the secret ingredient. Teachers are.

When teachers have the time and space to connect with students, the magic of learning happens. But in today's classrooms, time and space are tough to come by.

Merlyn is the only AI solution that meets teachers in the reality of the modern classroom. By easing tech friction, saving time, and making space for deeper teacher-student relationships, Merlyn gives teachers the freedom to connect, create, and inspire during precious classroom time.

How does Merlyn Origin benefit teachers and students?

Connect

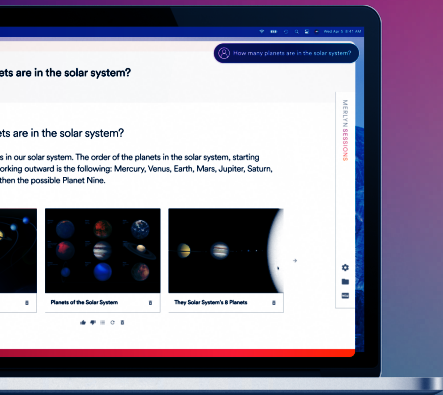

Merlyn's voice control of technology is like an AI superpower. With Merlyn, teachers can operate their front-of-class display, laptop, internet applications, and Merlyn's generative AI chat from anywhere in the room via voice or remote control.

Create

Merlyn's in-classroom generative AI chat rewards student curiosity, encourages higher-order thinking, and makes kids excited about learning. All with the confidence that it's private, safe, and secure.

Inspire

The richest learning experiences come from teacher-student engagement, not from silent classrooms and students staring at screens. Merlyn creates a classroom environment that supports flexibility and makes space for the all-important human side of teaching and learning.

Merlyn is a game-changer

Teachers and administrators love Merlyn!

Before Merlyn

- ✗ Teachers tethered to the front of the room
- ✗ Teachers burdened by tech friction and cognitive overload
- ✗ AI solutions not safe for classroom use

With Merlyn

- ✓ Teachers free to be among their students
- ✓ With voice control, tech disappears into the background
- ✓ Safe, secure, private AI for the classroom

“I’m away from my computer. I’m with my students. I’m really living the moment with them.”
– Second-grade teacher

“The promise of edtech has always been, ‘We’re going to make life easier.’ I’ve been doing this a long time, and Merlyn is the first edtech product that is actually making the lives of our teachers easier.” – District superintendent

The time is now

AI is here to stay, and it’s critical for us to model the safe, secure, and smart use of AI for our students. If we don’t, they will get left behind.

Let’s discuss solutions for your district:
